

Nail Products for Your Next Bestselling Collection

A focused introduction to JKNART products, private-label options and flexible sampling

For independent nail brands, salons, retailers and distributors

Explore ready-stock categories, customization options and packaging support from a Shenzhen-based supply team. Share your market and product needs, and we will recommend a focused selection for discussion.

Core Product Range

Start with the categories that fit your customers. Product-specific catalogues are available on request.

Nail Stickers

Seasonal and trend-led designs for retail and salon assortments.

Gel Polish

Color gels, base and top systems, functional gels and specialty effects.

Press-on Nails

Ready-to-sell designs, reusable sets and private-label collections.

Semi-cured Gel Strips

At-home nail sets with lamp and packaging options.

Nail Art Decorations

Stones, charms, glitter and accessories for salon and retail ranges.

Private-label Nail Kits

Curated kits for brands, salons, distributors and launches.

Also available

Nail lamps | Nail tools | Nail tips | Functional gels | Builder systems | Seasonal sets

Private Label Made Practical

Build a focused assortment through ready-stock testing, sampling and project-specific customization.

Customization options

- Logo, labels, container styles and retail packaging, subject to product and process.
- Private-label kits assembled around your audience, channel and target price range.
- Product specifications, minimum quantities, samples, pricing and lead times confirmed in writing for each project.

Ready-stock and sampling

- Ready-stock availability and mixed-style options are confirmed when you inquire.
- A focused sample selection can be prepared around your market and product category.
- Sample fees, shipping costs and any tooling charges are agreed before work begins.

Every quotation identifies the applicable product, specification, quantity, commercial terms, documents, lead time and shipping arrangement.

Documents, Logistics and Markets

Product-specific support is confirmed according to the destination, product and project requirements.

Product documents

MSDS and product-specific test documents may be available for applicable products. Any requested document or certification is confirmed before quotation.

Logistics options

Courier, air, road and sea options can be discussed according to destination, timing, shipment size and budget.

Delivery markets

We can discuss shipments to the USA, Canada, Europe, the UK, Latin America, Australia and Southeast Asia, subject to product and destination requirements.

Compliance note

This guide is a general B2B introduction. Product claims, regulatory status, availability and supporting documents are confirmed for the specific item and market before an order is accepted.

Start with a Focused Project Brief

Share the information below so we can recommend the most relevant catalogue and sample options.

What to include

- Your name, company and country
- Product categories and estimated quantities
- Target market, sales channel and target price range
- Whether you need ready stock, custom branding, packaging or product development
- Reference images and your preferred launch schedule
